

Caregiver and Medical Neglect of Paul Pantone at the Utah State Hospital

Paul Pantone from a July 30, 2005 video with teeth intact (four and a half months before incarceration).

Utah State Hospital - Forensic Unit - A place of medical torture and neglect for prisoners like Paul Pantone.

Paul Pantone just over one year after incarceration in February 2007.

Paul's teeth somewhat deteriorated February 2007.

Paul suffering from further painful untreated medical and dental deterioration. November 2007

Partial teeth left rotting and festering for months making sleep and eating torturous. November 2007.

Paul's untreated twisted foot after 11 months of inexcusable USH neglect as of February 2007.

Paul's foot after November 2007 surgery and 19 months of untreated suffering.

Paul's foot is still quite red two weeks after November 8, 2007 surgery,

December 2007 damage from USH changing bandages infrequently & forcing Paul to use wrong size walker.

By December 2007, Paul's toe swells up painfully, blood vessels may be broken and a staff culture is found there.

Here also is Paul's long term infected and neglected backside as seen in November 2007.
